## **SYLLABUS**

## Chemistry 4B/4BL: General Chemistry & Quantitative Analysis Spring 2020

This series is intended for majors in physical and biological sciences and in engineering. It presents the foundation principles of chemistry, including stoichiometry, ideal and real gases, acid-base and solubility equilibria, oxidation-reduction reactions, thermochemistry, entropy, nuclear chemistry and radioactivity, the atoms and elements, the periodic table, quantum theory, chemical bonding, molecular structure, chemical kinetics, and descriptive chemistry. Examples and applications will be drawn from diverse areas of special interest such as atmospheric, environmental, materials, polymer and computational chemistry, and biochemistry. Laboratory emphasizes quantitative work. Equivalent to 1A-1B plus 15 as prerequisite for further courses in chemistry.

Lectures:	Mondays, Wednesday 1 Pimentel Hall	ys, and Fridays 10-11 AM
Web Page:	https://bcourses.berke	eley.edu/courses/1488826
Instructors:	Professor Richard J. S D31 Hildebrand Hall Office Hours: Wedne E-Mail: saykally@be Research Group: www	sdays 1:30-2:30 PM
	Thursd E-Mail: <u>arnold@berk</u>	ys 1:00-2:00 PM, 530 Latimer ays 2:00-3:00 PM, 530 Latimer eley.edu s://www.pbn2au.com/

	Alex Prophet	prophet@berkeley.edu
	Steven Saric	steven_saric@berkeley.edu
	Inwhan Roh	inwhan.roh@berkeley.edu
	Joe Brackbill	joebrackbill@berkeley.edu
	Emile Quallatta	ouelletteerik@berkelev.edu

Joe Brackbilljoebrackbill@berkeley.eduErik Ouelletteouelletteerik@berkeley.eduDominic Russodominic\_russo@berkeley.eduPriscilla Pieterspriscilla\_pieters@berkeley.eduSergio Pineda Floressergio\_pinedaflores@berkeley.eduAdam Rettigadam\_rettig@berkeley.edu

Prerequisites: C or better in Chemistry 4A

Texts(2):Oxtoby, Gilles and Campion, Principles of Modern Chemistry (8th Edition),<br/>Saunders College Publishing; *Required* 

Daniel C. Harris, Quantitative Chemical Analysis (9th Edition), W.H.
Freeman and Company; <i>Required</i>
On bCourses

Course Content: To the maximum extent possible, this course will be a survey of modern topics in chemistry. It will include basic principles as well as contemporary applications. The lecture material is divided into four sections. Each section is followed by an exam. An outline of the lectures for each section will be provided separately. Laboratory material is coordinated with the lectures to the maximum extent possible, although they are ultimately independent and complementary parts of the course. Lecture material is designed to complement, not to repeat, the recommended reading in the text. Hence, your reading should be completed before the lectures.

Lab Manual:

PART I: CONCEPTS: EXAM:	I: When Things Go Boom: Rates of Chemical Reactions (10 Lectures) Chemical kinetics, theory of chemical reactions, catalysis (F 2/14) Exam 1 – IN CLASS	
PART II: CONCEPTS: EXAM:	II: Clean Energy? (8 Lectures) Electrochemistry, nuclear chemistry, batteries, fuel cells (M 3/9) Exam 2 – IN CLASS	
PART III: CONCEPTS: EXAM:	<b>III:</b> Survey of the Periodic Table (10 Lectures) Chemistry of the <i>s</i> , <i>p</i> and <i>d</i> block elements. Organic molecules, functional groups, transition metal coordination complexes. (W 4/8) Exam 3 – IN CLASS	
Part IV: CONCEPTS:	<b>IV: Inorganic &amp; Organic Materials</b> (9 Lectures) Chemistry of the <i>f</i> block elements. Inorganic materials; synthetic and natural polymers	
FINAL EXAM:	Wednesday, May 13, 8:00-11:00 AM, cumulative	
Grading:	The composition of your course grade will be:Midterms (3)30%Final Exam (Cumulative)30%Laboratory35%Problem Sets5%	
	Letter grades will be assigned as follows A: 90–100% B: 75–90% C: 55–75% D: 35–55% F: 00–35% <i>Cutoffs may be lowered but they will not be raised!</i>	
Homework:	Homework will be assigned and graded. Assignments are to be handed in to your GSI before lecture on the date due. No late homework will be accepted.	
Exams:	No makeup exams will be given. If you miss an exam, you will receive a grade of zero, except in cases of <i>documented</i> emergencies.	
Discussion:	GSIs will be hosting optional weekly discussion/review sessions in conjunctions with their office hours. See the posted office hours schedule online. Exam review session dates and times will be posted on bCourses.
